Dear Harold,

It was a pleasure talking with you again on Friday. Hope this correspondence finds you well. Per our conversation, I am enclosing the article you requested and I am ordering Never Again and Case Open from Last Hurrah. If there are crucial salient points that the editor deleted from your manuscript for Case Open you feel I should know about, please at your leisure write them to me.

Sincerely,

Allan G. Schulman

He sent me the Chicago Tribune story on the 12/4/96 statement of generals and admirals that all nuclear weapons should be destroyed. Before I could write and thank him he phoned and I did thank him.
